

THERACOCO™

COCONUT OIL INFUSED PARAFFIN WAX BY THERABATH

A CLASSIC PARAFFIN TREATMENT,
Moisturizing to New Depths!

We've taken our paraffin waxes to the next level of moisturization! Replacing our standard emolient of white oil with a **readily-absorbed coconut oil** changes the entire dynamic of the paraffin treatment!

BENEFITS OF COCONUT OIL

- Naturally antibacterial, anti-fungal, and antimicrobial.
- Helps to reduce inflammation.
- Will not clog pores.
- Readily absorbed into the skin making it an excellent moisturizer.
- Leaves the skin silky, without leaving a surface residue.

We use a USA Sourced Non-GMO, Organic Coconut Oil!

COCONUT OIL INFUSED PARAFFIN WAX BY THERABATH

TheraCOCO™ REFILL PARAFFIN WAX

A Classic Paraffin Treatment that Moisturizes to New Depths!

TheraCOCO™ Paraffin Wax by Therabath replaces the standard white oil we use in our classic line of paraffin waxes with an **Organic Coconut Oil** that is readily-absorbed and easily soaks in to the skin. In contrast, the white paraffin oil in our classic waxes acts as an emolient trapping moisture from within on the surface of the skin. The heat from the paraffin drives the coconut oil deep into the skin leaving a silky smooth, super-moisturized texture and feel!

Available in an introductory 3lb trial size, or a back-bar, salon/spa 24lb bulk size.
